PROYECTAZOS

Here is where the magic begins...

WHY???

- continuous learning
- become a more active part of the community
- try new techniques

AS A DATA SCIENTIST YOU SHOULD KNOW THAT:

1. business understanding
2. formalization of the problem
3. data collection
4. data preprocessing
5. Modeling
6. Evaluation
7. deployment

01 EXPERIENCE

02 EDUCATION

03 SKILLS

04 INTERESTS

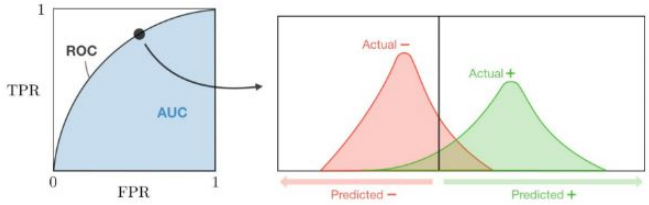
WHERE TO START?

look for a project that will move your heart 💜

Santander

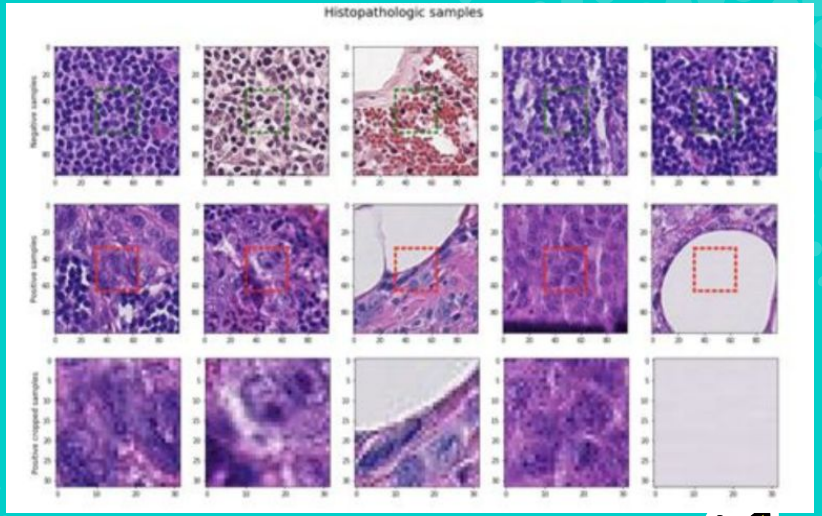
Santander bank was looking for identify if a customer was going to make a transaction specific based on 200 customer variables

#	Team Name	Kernel	Team Members	Score	Entries
1	Wizardry			0.92727	91
2	三人寄れば文殊の知恵（本当...			0.92653	45
3	Rock, Physics, Science!			0.92580	101
4	KKM			0.92563	107
5	The Zoo			0.92563	125

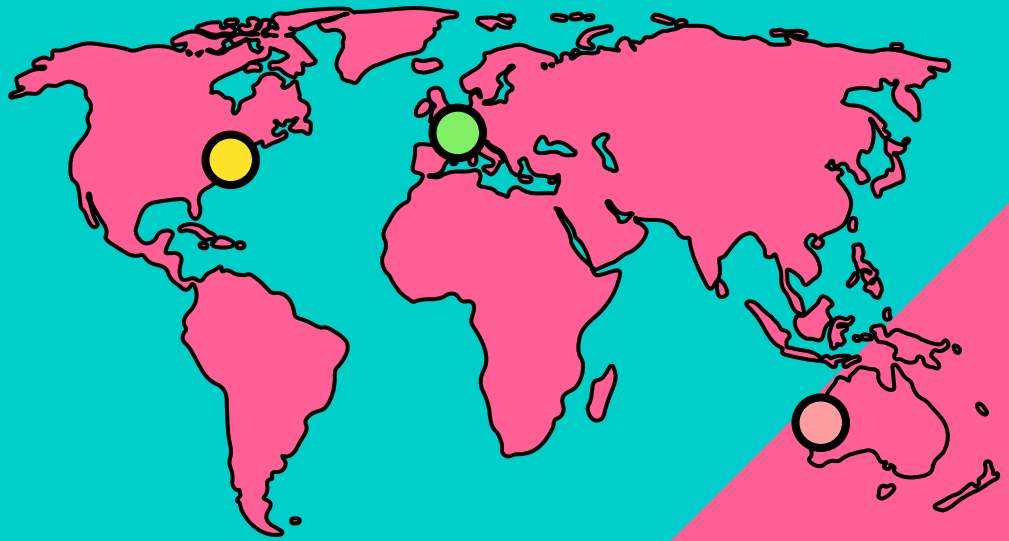


Cancer Screening

Detect tissue with lymph node metastasis



Website Traffic



The challenge is to predict the number of

145 thousand page views

web for the next 62 days

in a row. You have 803 days

of history.

Toxic comments

Sort the comments according to their toxicity

SKILLS
